

# National Provider Database & Group Practice File

*The Leading Source of Provider Demographic Information*

## Provider Information Delivered:

The National Provider Database is developed and maintained by AdvantageMS, a leading data management, data provider, and commercial operations expert in the Healthcare industry. The National Provider Database and Group Practice File are data sources that provide a comprehensive listing of healthcare providers spanning every major specialty. It is selectable by numerous dimensions including: geography, education, affiliation, licensing, and more. We process over 10 million records per month and manually check more than 750,000 records per year so you don't have to.

Our 3 million active providers include:

- 908,000+ MDs
- 66,000+ DOs
- 109,000+ physician's assistants
- 259,000+ nurse practitioners
- 1,600,000+ nurses, dentists, veterinarians and other specialties

- Comprehensive database of healthcare providers, group practices and medical facilities in the US
- Over 60 primary sources
- Updated daily providing unsurpassed accuracy
- In partnership with the American Medical Association
- Compliance Data Services
  - Specialty Verification
  - Sunshine Preparedness
- Complete master data management services
- Complete web access with prebuilt integration to the most popular SFA applications

When it comes to covering the United States population of healthcare providers, no other resource can match the breadth and depth of the National Provider Database.

**HCP Demographics**

- Full Name (& former)
- Degree

- NPI
- UPIN
- AMS
- SLN
- CRI
- And more...

## A Comprehensive, Highly Accurate List of Group Practices

AdvantageMS maintains one of the industry's largest Group Practice Files, with more than 500,000 MDs and DOs affiliated to more than 105,000 business locations. We offer complete coverage of these group practices (two or more providers who have a legal relationship) after validating parent-satellite relationships. In addition, AdvantageMS collects all relevant information pertaining to:

- Community mental health centers (12,000+ locations)
- Dialysis centers (6,000+ locations)
- VA centers (3,500+ locations)
- Kaiser Permanente providers (6,000+ locations)
- Oncology and infusion centers (8,000+ locations)

## A 20 Year Legacy of Uncompromising Accuracy

For more than 20 years, the leadership team at AdvantageMS has built its reputation by assembling, integrating, and maintaining a trusted database of provider demographics, growing into a leading player in a market where there is no room for error. Under intense regulatory scrutiny, pharmaceutical and medical device manufacturers must submit 100% accurate reports of their marketing contracts with providers. Further, there is no sampling "One Drop Rule"- the FDA has clearly indicated that sampling cannot occur without current licensing information. Even the slightest errors or discrepancies can lead to seven-figure fines and other legal sanctions.

National Provider Database and Group Practice information is available to you for sales, marketing, research, risk management, market sizing, planning and demand-generation campaigns and programs.

Find out how you can tap into this extensive and precise resource.
